

Golvo™ 9000/LowBase™ mobile lift

Designed for versatility

Golvo 9000

Golvo 9000 LowBase

The Golvo 9000 lift offers the functional advantages of an overhead lift with the flexibility of a mobile lift. In combination with the extensive range of Liko accessories, Golvo is ideal for common lifting situations across a variety of care environments.

Features and benefits

Vertical lifting motion with flexible lift strap is ideal for horizontal lifting, ambulation and lifting from the floor

Parallel base-width adjustment contributes to easier lifting of patients or residents to/from chairs, beds and the floor

LowBase version allows for even greater clearance under low beds or stretchers versus the standard model

Armrests help to **support patients during ambulation**, as well as making it easier for caregivers to manoeuvre the lift

User display highlights device usage, including lift count, service required indicator and overloads

Optional **quick-release hook system** means caregivers can easily and rapidly change a sling bar or install a scale

Ergonomic hand control for lift operation displays both battery usage and overload indicators

An extensive assortment of accessories is available including slings, sling bars and scales

Two lifting speeds accommodate a variety of different lifting situations
